

MINJAE KIM

Git: github.com/kmj200392 ◇ Email: minjae_kim@kaist.ac.kr

EDUCATION

Korea University *B.E. in Computer Science and Engineering*

Expected Feb. 2027

Cumulative GPA: 3.98/4.50 (94.8/100)

Major GPA: 4.00/4.50

RESEARCH INTERESTS

My research focuses on developing **more capable, efficient, and adaptive LLM-based systems**. I am particularly interested in how language models and agents can reason, act, and accumulate knowledge efficiently over long horizons, while minimizing unnecessary computation, token usage, and external retrieval. My recent interests include **token-efficient LLM agents**, **memory and knowledge integration**, and **parametric mechanisms for efficient adaptation**.

RESEARCH EXPERIENCE

Research Intern, MLAI Lab at KAIST

Dec. 2025 – Present

KAIST Kim Jaechul Graduate School of AI

Seoul, Republic of Korea

- Research on long-term agent memory, multimodal memory, and efficient LLM-based agents under the supervision of Prof. Sung Ju Hwang.

Researcher / Team Lead, Industry-Academia Project

May 2025 – Nov. 2025

Korea University, in collaboration with CrowdWorks

Seoul, Republic of Korea

- Led a five-member team developing an Agentic RAG system for complex multi-hop retrieval and report generation.

PUBLICATIONS

International Publications

- [2] [MEMREFINE: LLM-Guided Compression for Long-Term Agent Memory](#)

Min-jae Kim, Jinheon Baek, Soyeong Jeong, and Sung Ju Hwang

arXiv preprint.

Domestic Publications, mostly written in Korean

- [1] Multi-Hop을 요구하는 복잡한 질의처리 검색 효율화를 위한 RAG와 Graph RAG의 결합 프레임워크 [Enhancing Multi-Hop Complex Query Retrieval Efficiency through the Integration of RAG and Graph RAG]

Seong-min Lee, He-eun Kim, Dong-young Lee, Min-seon Kang, **Min-jae Kim**, Soo-yeol Yang, and Young-sook Hwang

Annual Conference on Human and Cognitive Language Technology (HCLT 2025).

TEACHING AND MENTORING EXPERIENCE

Instructor, Agentic AI Lecture

Mar. 2026 – Jun. 2026

GDGoC KU, Google Developer Group on Campus Korea University

Korea University

- Designed and led an introductory Agentic AI lecture series for students, covering LLM-based agents, prompt engineering, RAG, memory, tool calling, and agent orchestration.
- Developed beginner-friendly hands-on materials to help students build practical AI agent systems.

Instructor, C Programming Study*KUICS, Korea University Institute of Computer Security*

Mar. 2024 – Jun. 2024

Korea University

- Organized and led a C programming study group for undergraduate students.
- Taught core programming concepts and supported students through hands-on problem-solving sessions.

LEADERSHIP EXPERIENCE

President, Ae-gineung Club Association*37th Korea University Ae-gineung Club Association*

Dec. 2025 – Present

Korea University

- Coordinating affiliated student clubs and supporting their operations, events, and communication.

President, Student Council of College of Informatics*9th Student Council, College of Informatics*

Nov. 2024 – Nov. 2025

Korea University

- Elected as the 9th Student Council President of the College of Informatics at Korea University.
- Led college-wide events, communication initiatives, student welfare programs, and student-centered development projects.
- Organized a college-wide hackathon, and two software-related competitions during the term.
- Coordinated cross-functional teams and stakeholders to deliver high-impact student programs.

Vice President, GDGoC KU*Google Developer Group on Campus Korea University*

2025

Korea University

- Served as the vice president of GDGoC KU, supporting developer community operations, technical programs, and student engagement.

Vice President, KUICS*Korea University Institute of Computer Security*

2024

Korea University

- Served as the vice president of KUICS, supporting club operations and student activities in information security.

AWARDS AND HONORS

Top Excellence Award / President of IITP Award

2025 SW-Centered University Outstanding Works Competition

2025

*Awarded by the Institute for Information & Communications Technology Planning & Evaluation (IITP)***Top Excellence Award**

2024 Re:ALThon, Korea University SW-Centered University Hackathon

2024
